### 铝箔绝缘袋

材质：聚乙烯+铝箔+珍珠棉

特点：能有效隔绝光线和异味等。

规格：定制

用途：防撞隔热

新鲜水果和蔬菜

保温保冷

Aluminium Foil Insulation Bag

Material: PE+Aluminium Foil+Pearl cotton

Features: Can effectively isolate light and odors,etc.

Specification: Custom

Usage: Anti-collision and heat insulation

Fresh fruits and vegetables

Insulation and cold preservation

纯铝+编织布+纯铝/铝箔+气泡+铝箔

由各种轻薄的铝膜隔热材料拼接而成。在货物运输过程中，保护货物不受高温和潮湿环境的影响，起到隔热保温、防水防尘的作用。

用途：适用于生鲜、食品、饮料、海鲜、奶制品、速冻品、生物试剂等需要低温冷藏的产品。

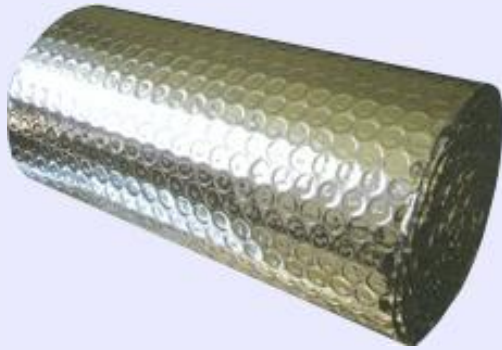

Pure aluminum + woven cloth + pure aluminum / aluminum foil + Bubble + aluminum foil

It is spliced by various light and thin aluminum film thermal insulation materials. In the process of goods transportation, protect the goods from the influence of high temperature and humid environment, and play the role of heat insulation, waterproof and dustproof.

Application: Fresh food, food, beverage, seafood, dairy products, quick frozen products, biological reagents and other products that need low temperature refrigeration.

这是一种新型环保隔热材料，柔软、轻巧、安装方便。它是由铝箔和大的聚乙烯泡沫经特殊机械加工而成。

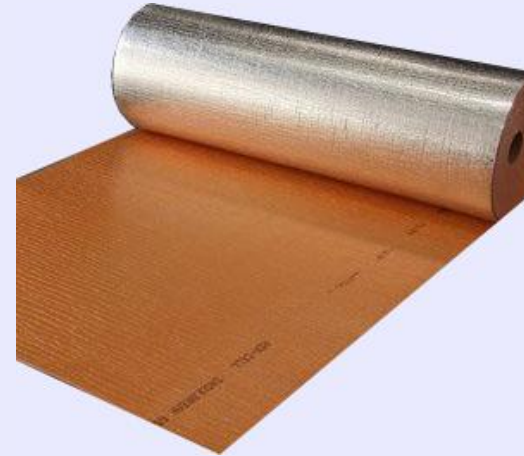

特点：

- 1.无异味和毒性，环保；
- 2.轻便、柔软、无尘、阻燃、安装方便；
- 3.热反射，隔热，隔音，抗辐射、抗振动、屏蔽；
- 4.防潮，防晒，防水，良好密封性、保温性、节能...；

**This is a new environmental -Friendly heat insulation material, which is soft, light and easy to install. It is made from aluminum foil and large polyethylene bubble by special machinery.**

**Characteristics:**

1. No odor and toxicity, environmentally-friendly;
2. Light, soft, dust free, fire retardant, easy to install;
3. Heat reflection, heat insulation, sound insulation, anti-radiation, anti-vibration and shielding;
4. Moisture barrier, sun-proof, waterproof, good sealing property, heat preservation, energy saving...;

本产品由多层阻隔材料组成，具有良好的保温隔热性能，是一种环保型产品。中间层泡沫具有很强的防潮、阻氧、降噪、隔音的能力，还具有反射光、散热、阻止紫外线穿透等优点。

用法：

冷热水管施工保温、透光及防护。  
冰箱分离；中央空调、冰箱等家电保温。  
可以做成不同的颜色。

**This Item consists of multi -layers of obstruction material, It is an environment friendly product which has good heat preservation and insulation properties. The middle layer of foam shows strong ability in barrier of moisture and oxygen, reduction and insulation of sound, it also has the advantages like reflecting light, heat and stopping the penetration of ultraviolet radiation.**

**Usage:**

Heat insulation and light inflecting in construction and protection for both cold water and hot water pipe.

Separation of refrigerator; warm keeping for center air-conditioner, refrigerator and other home appliances.

Can be made into different colors.

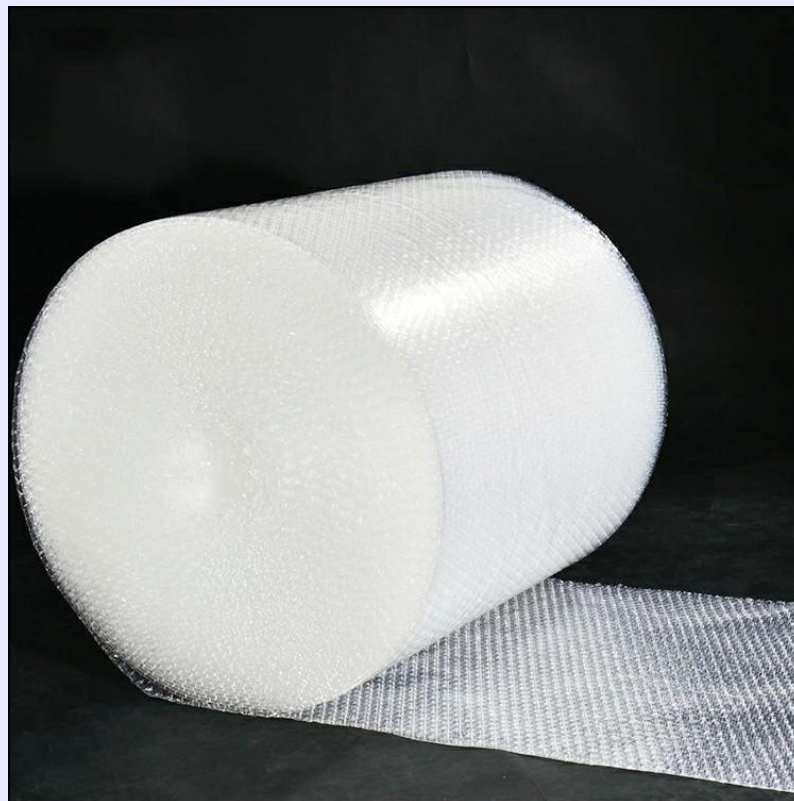

## 泡沫塑料包装

- 1) 采用 100% 全新原材料，内衬气泡，防震防水。
